FOUR BERTH

jura

SPECIFICATIONS

Jura can be driven on an ordinary car licence and has four sleeping berths and four seatbelts.

Powered by the Ford Diesel engine, with a six speed gearbox Jura is a low-line chassis, luxury packed motorhome. At just under six metres in length she is classed as a compact leisure vehicle, this doesn't mean that it lacks in comfort or features.

Jura has some off-grid capacity for 'wild' camping, with use of the leisure battery, gas and solar panels. However, we recommend at least three nights of a week on a site to charge up the battery, top up the water and empty the toilet cartridge.

The exterior is finished in sleek blue and white with minimal branding, to ensure you feel she is truly yours. We've also added a picnic table and chairs, as well as a bicycle carrier.

The drivers cab is light and airy – featuring cruise control, air conditioning, rear view camera and sunroof. DAB radio, bluetooth and solar panel. Driver and passenger seats swivel to face the spacious front lounge.

Jura gives you flexible living with an ingenious design thanks to a large rear washroom and ergonomic kitchen which benefits from a 142ltr fridge with 15ltr integrated freezer, so there will be ample space for travelling for an extended period without any stress.

The superior kitchen is feature-rich, including a three ring gas hob with multi function burner, oven, grill and Tassimo coffee maker. The bathroom features sink, separate shower and toilet with vanity mirror and cupboard storage.

The sleeping areas comprise a double size bed made up from the lounge area and above the lounge, an electric double sized bed cleverly moves down from the roof space and is accessed via a ladder. Both have mattress toppers and protectors for extra comfort.

There is a HD smart television with Apple TV, for you to enjoy in comfort. LED lighting provides a bright space, reading lights and a BOSE bluetooth speaker are also as standard. There is WiFi capability with complimentary unlimited broadband, DAB radio and USB charging points to keep you connected.

We include a welcome pack of our Malt of the Month, cosy cabin socks and Scottish tablet (all to take home) and several 'weel-kent' route travel guides. There is also 24/7 technical support should you need it.

If you have any questions or further requirements, please get in touch with us – we are only too happy to help.
