## TWO BERTH

### Adventure Defender

#### SPECIFICATIONS

The journey really does start here with our new and exclusive Adventure Defender, a rugged, adventure-ready camping machine, built for hardcore exploration!

This 2011 Defender 110 Pick Up has been perfectly partnered with the two berth Tent Box Cargo fixed to the roof for the ideal escape to the wilderness getaway. The innovative design of the gas-assisted opening mechanism means the tent box can be set up in just under a minute which is an absolute life saver in the rain. Just pop it, climb in and you're done.

The deep base allows storage of your ladder, bedding and pillows inside (so you're ready to go as soon as you pop it), the vents allow for excellent ventilation and condensation control. In addition, the top shell is lined with fabric, which provides insulation and a cosier

feel. The comfy foam fitted mattress, inbuilt air vents and premium fly mesh on all windows and doors, ensure that your sleeping space will remain insect free, a great nights rest awaits for a 'sleeping under the stars' experience.

Every intrepid explorer deserves a Defender in their life, this trusty workhorse will take you wherever you want to go, and you can be assured of a truly memorable experience. The exterior is finished in traditional Landrover green with minimal branding, to ensure you feel she is truly yours.

You can always add to the fun and invite some friends along, the Adventure Defender travels five people and by bringing your own standard ground tent you can increase your sleeping space, the choice is yours.

This innovative combination comes with access ladder, Dometic fridge or freezer, storage boxes, an in-built roof solar panel and complimentary unlimited broadband (3G/4G required). The 'Goal Zero' portable power pack to give you power wherever you go. You can enjoy complete isolation but with technology at your fingertips, never loose charge and miss out on posting those amazing pictures on social media.

The frame of the Tent Box is built entirely from high-grade steel and aluminium, with marine grade canvas walls, making it super strong and ready for extreme adventure. The Tent Box can stand even the strongest storms. It's rated to withstand winds of up to 39mph (a heavy storm), and the high quality canvas is both breathable and 100% waterproof. The large front access 'door' provides spectacular views, there is nothing better than waking up to the sun rising over the beautiful UK countryside.

Also included in the price is a functional and compact two burner BBQ style gas hob, the essentials kit bag including pans, crockery and cutlery, a whistling kettle and camping chairs/table. All the equipment you need for a perfect sizzle before sitting back to enjoy the view.

There is also 24/7 technical support should you need it.

If you have any questions or further requirements, please get in touch with us – we are only too happy to help.

Your adventure awaits in the Adventure Defender!
